

CRAFTING IDEA

GB

Piece of cake

TIME REQUIRED  
**45 MINUTES**  
(WITHOUT CASTING  
& DRYING TIME)

LEVEL OF DIFFICULTY

### Used items:

- |                   |                          |                     |
|-------------------|--------------------------|---------------------|
| <b>34 221 000</b> | Soap casting mould: cube | 1 piece             |
| <b>34 229 000</b> | Creative-soap            | 400 g give 4 pieces |
| <b>34 246 532</b> | Soap-colour, nougat      |                     |

### Cream rosette

- |                   |                        |
|-------------------|------------------------|
| <b>34 223 000</b> | Kneading-soap          |
| <b>89 799 000</b> | Pastry bag with 4 tips |

### Additionally you need:

Scales, pot, melting pot, small plastic container, stirrers, kettle, cooking oil, craft stick

### Instructions:

#### Soap

- 1 Melt the creative-soap in a water-bath on the stove (max. 60° - do not boil).
- 2 After the complete melting, you can stir the desired colour and/or fragrance oil in the liquid soap. Therefore, use a wooden spatula or a teaspoon. Pour it dropwise.
- 3 Let the soap dry well out (at least 2-3 hours, ideally one day).
- 4 Demould the soap by a slight pressure.
- 5 Put a cream frosting (see instructions for cream rosette) with some liquid white soap onto the moulded soap slice and insert a heart cut-out by cookie cutter into still wet kneading-soap (see instructions for cookie cutter).

#### Cream rosette

- 6 Mix the kneading-soap with hot water and the cooking oil - 50g of the kneading-soap with 20ml of hot water and about 5ml of the cooking oil.
- 7 Stir this mixture with a craft stick and let it rest for 10 minutes.
- 8 Then knead the mixture well again.
- 9 Build together a pastry bag (without a bag) and fill it with some kneading-soap.
- 10 Push the kneading-soap with a finger through the tip and shape at once the pushed out mixture.

TIME REQUIRED  
**45 MINUTES**  
(WITHOUT CASTING  
& DRYING TIME)

LEVEL OF DIFFICULTY

#### **Cookie cutter**

**11** Melt the creative-soap in a water-bath on the stove  
(max. 60° - do not boil).

**12** After the complete melting, you can stir the colour in the liquid soap.  
Therefore, use a wooden spatula or a teaspoon. Pour it dropwise.

**13** Pour the melted soap onto a flat surface such as a small lid or some  
aluminum foil.

**14** Once the soap hardened, after at least half an hour, you can cut the  
desired motifs out by means of the cookie cutters.

#### **Additional info and tools**

The soap dries or rather carries on ripening and becomes thereby firmer  
(two up to three weeks). Depending on the temperature and airiness, the  
soap can perspire. We recommend therefore to wrap the soap after its  
demoulding in a cellophane foil. Clean the soap casting mould and the pots  
with hot water.
