# Oval wedding candle with transfer foil

## Used items:

<b>31 550 000</b>	Oval candle with 2 wicks	1 piece
<b>31 572 000</b>	Transfer foil A4	1/2 sheet
<b>59 923 000</b>	Tag Maker-Ticket & Curly	1 piece
<b>69 110 000</b>	Embossing-puncher: striped heart	1 piece
<b>80 021 102</b>	Card A4, white	some
<b>57 991 660</b>	A4 craft cardboard	some
<b>55 216 02</b>	Organza ribbon, white	1 m
<b>68 053 606</b>	Cord	1 m

## Additionally you need:

**89 378 00** Hobby scissors  
A container with water  
Laser printer

## Instructions:

- 1 Imprint laterally correct the transfer foil onto the shiny side by means of a laser printer/laser copier (the fixing drum temperature max. 170°C). To control the desired colour depth & sharpness of the motif, a previous printing on a white copy paper is recommended.
- 2 Cut the printed motif out, lay it with the printed side down in water, turn it over and once the motif begins to dissolve, slide it onto the candle.
- 3 The motif can be adjusted while still being wet, then dab dry with a cloth and let it dry for about 6 hours.
- 4 After a drying out period, the candle can be lacquered with the candle lacquer 31 159 00.
- 5 At the end, punch out the tags and hearts, label them and decorate the candle as well the punched parts with the organza ribbon & cord.
