Instructions:

1 Pre-wash the Fashion-Shopper without fabric softener and flatten it by ironing before you start stencilling. Put a cardboard or a thick paper into the already prepared bag and you can get started.

2 Remove the stencil from the carrier sheet and place it centrally on the bag and press it slightly on.

3 Apply the first shaken out metallic fabric dye (brill.gold) over the stencil along the motif. Hold the stencil upwards with one hand. Drag the paint by means of the squeegee at a 45°-angle with slight downward pressure. Repeat the colour application until the motif is completely stencilled.

4 After stencilling, remove the stencil carefully and laterally flat, and clean it immediately with the cleaner (38 024 000), water and the household sponge.

... and your customized Fashion-Shopper is ready for use!
